Thank You!

Dear Editor.—Allow me to extend to you my sincerest greetings and a hearty welcome as the new editor of the T. D. C. C. It was very sad news indeed to hear that Mrs. Tyler had passed away. I know all the girls and boys loved her and will never forget her. Your letter was said, but beautiful, and I ertainly did empoy reading it. I think 'Ellkabeth Taylor's idea is splendid, and I would suggest something like I kis: Let us form a little club and call it the Memory Society. Each member desiring to join must pay an admission feet of 5 cents, and after that 5 cents a month. I am sure we could all spare so small a sum as that. Of course, our editor would take charge of that, and at the end of a year we could arrange It so we could purchase lovely howers and send it to be placed on the grave of our departed editor. Perhaps we could have little buttons to wear also. What do you think of this dear editor? Hoping for a reply, I am, your loving member.

We have often run a fly walking or running up the window pane or across the ceiling and have wondered how it could do it.

If you examine the foot of a fly through a movement when the same are all her life there-

will see that its foot is made up of two little pads.

On these pads very fine short hairs grow. These hairs are so fine that there are more than a thousand and on each foot pad. The hairs are hollow. At the end of each hair is a mouth, the shape of a trumpet. Back of the pad is a hag filled with liquid glue.

When the fly steps it presses the liquid through these hollow hairs out of the little mouths.

Her most famous painting is probably the "Horse Fair." This picture has been exhibited all over the world very nearly. Finally it was sold to America. It was painted in 1852 by Rosa Bonheur, then in her thirtieth was not considered the salon in 1811.
